

Dear Hiring Manager,

I am writing to express my interest in the Full Stack Developer position .I am a highly motivated and skilled web developer with a passion for building innovative and user-friendly web applications. I have a strong foundation in Java, JavaScript, TypeScript, React, Node.js, Express, Tailwind CSS, Vite, Git, GraphQL, MongoDB, and MySQL..

In my current role as a Web Developer Intern at Quandatum Analytics, I am responsible for designing and building company websites. I have worked on a variety of projects, including:

- A price tracker that scrapes product details from Amazon, stores the data in a MongoDB database, and sends email notifications to users when there are changes in the product details.
- A MERN Finance Dashboard App with a prediction page that uses machine learning to predict the company's revenue.
- An AI-powered website that generates concise and informative summaries of web pages.
- A feature-rich travel app with Next.js 13 and Tailwind CSS, featuring various camps to explore and a travel guide section with modern UI/UX.

I am a quick learner and I am eager to contribute to the mission of providing innovative solutions. I am confident that my skills and experience would be a valuable asset to your team.

Thank you for your time and consideration.

Sincerely,

Krishnanjali
